

The role of **WorkCover Assist** is to provide assistance with conciliation. If a matter is not resolved at Conciliation, often the only remaining option is to pursue legal proceedings. Even if your matter is resolved at conciliation, it can be important to obtain information about alternative entitlements that may be available to you under the WorkCover legislation.

**WorkCover Assist** does not provide advice about the viability of any legal remedy or time limits that may apply to those remedies. As strict time limits apply to the right to pursue a claim for common law damages in particular; it is recommended that, if you have not done so, you obtain legal advice without delay.

**WorkCover Assist** does not endorse any legal firm.

Set out below is a list of solicitors who practice in WorkCover injury claims.

It is important that when you engage a legal firm, you ensure that you fully understand the financial arrangements between you and that firm. You may care to discuss your case with several legal firms before making a commitment.
